PROFESSIONAL EXPERIENCE

Healthcare of Ontario Pension Plan (HOOPP)

Toronto, ON

Senior Analyst of Analytics - Total Fund Analytics

March.2025 – Current

- **Data Pipeline & Process Optimization:** Partnered with cross-functional teams to build scalable data solutions, writing SQL queries and integrating AI and PowerAutomate tools into existing pipelines, successfully driving stakeholder adoption and reducing manual processing time by 85%.
- **Executive Advisory & Strategic Reporting:** Translated complex total fund data into actionable insights, preparing comprehensive Investment Committee presentations and dashboards that guided CFO and Board-level strategic planning.
- **Quantitative Decision Support & Analysis:** Built reporting frameworks to size new verticals and evaluate private investment products. Delivered data-backed info that influenced strategic capital allocation and optimized revenue potential.
- **Executive Dashboards & Decision Support:** Designed, developed, and owned interactive Power BI dashboards to track leading indicators and core performance KPIs, driving data-informed business reviews with senior executive stakeholders.
- **Cross-Functional Execution:** Led cross-functional alignment across Risk, Operations, and Compliance to ensure seamless execution for \$2B+ in global assets. Analyzed FX fluctuations to optimize liquidity and protect portfolio margins.

Ontario Municipal Employees Retirement System (OMERS)

Toronto, ON

Analyst - Total Fund Performance Analytics

March.2023 – August.2024

- **Stakeholder Management & Insight Generation:** Anticipated executive data needs by translating complex performance metrics into clear, actionable PowerPoint narratives, guiding C-suite decision-making.
- **Market Strategy & Secondary Research:** Conducted in-depth secondary research to produce macro, sector, and liquidity commentary, supporting senior leadership in client engagement and strategic investment positioning.
- **P&L analytics:** Evaluated liquidity, FX exposure, and costs-benefit analysis to support strategic planning cycles, long-term capital allocation, and portfolio optimization. Collaborated with senior leaders to craft report that aligned performance analytics with corporate strategy and stakeholder interests.

Analyst - Corporate Financing

May.2022 – March.2023

- **Financial Modeling & Deal Strategy:** Executed complex financial modeling and valuations to support \$15B+ in capital market debt transactions, applying probability and forecasting to evaluate opportunities, preparing investor pitchbooks.
- **Institutional Client Relations:** Managed inquiries from LPs and GPs across North America and Europe, explaining issuance structures and strengthening investor trust through timely, accurate market updates.
- **Regulatory Compliance:** Collaborated with Legal/Compliance on KYC/AML and source-of-funds reviews for cross-border transactions, ensuring strict adherence to global regulatory standards (crucial for Fintech compliance).

WORKING PROJECTS EXPERIENCE

PropTech Collective - VC Consultant

Sep. 2024 – Mar. 2025

- **Market Analysis & Due Diligence:** Conducted deep-dive diligence on early-stage Fintech startups, assessing Product-Market Fit (PMF), revenue models, and competitive differentiation to inform investment decisions.
- **Strategic Reporting:** Contributed to the PropTech 30 Report, leveraging weighted investment criteria to rank high-growth startups, demonstrating an ability to identify "winner" characteristics in the SME/Tech space.

Starting Gate Fund - Strategy Consultant

June. 2025 – Feb. 2026

- **Go-To-Market Strategy & KPI Tracking:** Served as the primary analytics partner for GTM strategy, designing frameworks to track pipeline health, optimize CAC, and successfully secure 30 initial enterprise clients.
- **Predictive Modeling & Revenue Strategy:** Analyzed competitor data to diagnose market gaps, translating complex datasets into actionable retention strategies that maximized SaaS LTV and identified new business opportunities.
